

DR. BRIAN AMISON & STAFF:

I can not Thank you enough for your kind, human touches. From your introductions, to the information of the procedures, to the exit. My mother was very fearful and you and your staff put her at ease immediately. She was very comfortable and felt at ease with your kindness and gentleness and with your laughter. What is so ironic was I was thinking about sending you this letter when low and behold Dr. Amison called to check on my mother, that just sealed the deal. I have never felt so comfortable and confident then I did today with you and your staff. This proves to me that you and your staff work together as a team and that is so important. I want you to know it shows!

PS. You made my life much easier today because you pleased my mom. She will be returning for follow-ups. And I may also switch to you.

THANK YOU!
THANK YOU!
