

December 2010

To Dr. Amison + Staff:

Thanks for being one of the most down-to-Earth groups we know. There are very few professional groups who are as kind, caring, and knowledgeable as your team. We emphasize TEAM since that is what you present from the moment we walk in the front door and through the entire visit. We can confidently say "team" since we have been patients of yours for over a decade and you are consistent every time.

We are big fans of the leading technology you have been using at your practice and excellent preventive measures you take to educate your patients toward long-term, healthy smiles. You and your staff are consistently gentle and careful, which makes us feel very comfortable every time.

Thank you for your excellent bedside manner, caring attitude, and genuine interest in the well-being of your patients. It shows.

Best of Success + Thank You!

Brian + Anne Kocher
