

Dr. Amison,

I just wanted to thank you for the Grinders gift card. You are by far the most caring and generous doctor I know. I knew you were doing an emergency case (what the ladies at the desk told me) that was running over, however, I did not mind waiting those extra 20-30 minutes. Since I am in the medical field as well, I know things come up unexpectedly and cases can bring unknown "speed bumps" that can delay an entire schedule. So, I want to thank you for your outstanding care, gentleness, and overall kindness that you exemplify towards me and all your patients. My husband and I decided that even if we do move to Broadview Heights/Brecksville, we believe that we will make the drive down to your office anyway. Thank you again!

Megan L
